

# We are the business behind business<sup>®</sup>

Knowledge-based solutions for every phase of the business life cycle

Our history dates back to 1899, when Josiah Marvel and Christopher Ward, two leading figures of the Delaware legal community, founded separate firms to provide entity formation and statutory representation services to businesses. Two decades later, they joined forces to create **CSC**. Today, we are a world leader in business, legal, tax, and digital brand services.

Companies choose CSC as their business partner because we offer expert solutions that create a competitive edge, helping them perform at their best.

At CSC, relationships come first. Our knowledge of our clients' businesses, our thorough approach, and our undivided attention to our clients' needs are what drive our commitment to their success. We treat each client's business as our own, taking pride and care in everything we do—becoming a true extension of their team.

## Compliance, governance and transactional services

CSC can fulfill your need for representation and compliance services in any state, the District of Columbia, and key international jurisdictions. Our fast, reliable Registered Agent service features electronic service of process (SOP) delivery, and offers full integration with our CSC Entity Management<sup>SM</sup> and CSC Matter Management<sup>SM</sup> solutions.

- Registered Agent Services—Your need for a registered agent in any jurisdiction is fulfilled, and annual reports are tracked and filed on your behalf.
- Corporate Filings and Documents—We assist you with your filing needs, qualifications, good standing certificates, formations, bring-downs, and more.
- Matter and Deal Management—CSC offers simplification of your litigation, contract, and service of process management with collaboration and customized workflow tools.
- Entity Management and Compliance—CSC can globally source and maintain the right licenses and permits for your business, and store, organize, and monitor the status of your entities in our secure compliance and governance software.

## Digital brand services

Leading companies around the world choose CSC as their trusted partner to gain control of their digital assets, maximize their online potential, and increase online security against brand risks.

- We offer CSC Security Center<sup>SM</sup>, a first-of-its-kind online interface, designed to expose security blind spots that make vital online brand assets susceptible to cyber crime. Powered by advanced analytics built by CSC to identify these risks, companies can take quick action to reduce real-world online threats that compromise web presence, customer data, and critical business functions, such as email.
- CSC consolidates, optimizes, promotes, and secures your digital assets. Our centralized digital brand services can help you seize control of growth opportunities, regain lost web traffic, and maximize the return on investment of your digital portfolio.
- We monitor and enforce your brand rights with tailored and evolving solutions that help prevent revenue loss and brand abuse by eliminating digital infringements and counterfeiting.
- We help you manage your digital portfolio, including domain names, your domain name system (DNS), vanity URLs, and secure sockets layer (SSL) certificates.

## Uniform Commercial Code (UCC) and real estate document services

CSC provides Uniform Commercial Code (UCC), real estate (land records) document, and corporate filing services *in all states* and globally, to every type of organization, from commercial banks and capital finance companies to leasing enterprises, corporations, and legal firms.

- We help you stay compliant with UCC Article 9 with access to the largest database of UCC information.
- We can provide secured party representation to prevent your competitors from using the public record for sales solicitations.
- CSC conducts real estate searches and records documents on your behalf in jurisdictions across the nation.
- Our services save you costs, reduce errors, improve due diligence efforts, and make routine business processes much easier.

## Corporate tax services

CSC Corptax<sup>®</sup> transforms the business of tax through technology and business process expertise. We provide the market's only entity-driven, single-platform solution—proven to optimize performance across the corporate tax life cycle.

- Easily get data into the system from various sources, reducing repetitive data movement, maintaining accuracy, and saving time.
- Identify data sources, track entity structures through time, and get complete visibility into how calculations work—eliminating uncertainty.
- Meet deadlines with trusted data, and gain time for collaboration, what-if scenarios, and informed decision making.
- Markedly reduce tax cycle time and administrative costs, and improve planning and analysis capabilities.

## Global financial market services

CSC and its wholly owned subsidiary, Delaware Trust, provide a full suite of trust and agency, independent director, private equity networking, and special-purpose entity (SPE) services to corporations, law firms, financial institutions, and private equity firms. Think of us as a boutique provider of customizable services, with an expert team ready to assist you from pre-closing through completion of your deal.

- CSC provides Corporate Administration, Corporate Trust and Agency, and Specialized Outsourcing services to alternative finance lenders, fund managers, borrowers, and capital markets participants across the full range of asset classes.
- Our dedicated teams in the United States, Europe, and Asia-Pacific region possess the expertise to address our clients' needs across a wide range of jurisdictions, asset classes, and structures.
