

Active Cyber Insurance for Title Insurance Agents

Title agencies are often targeted by cybercriminals because of the sensitive data they handle. Just one breach can expose property details, contracts, and client information — leading to legal action, fines, reputational harm, and lost business.

Potential cyber claim scenarios

A cybercriminal intercepts a title agent's emails and diverts closing funds to a fraudulent account.

Malicious software encrypts the agency's files or systems, halting operations and closings.

Hackers gain unauthorized access to client data, and demand a ransom for non-disclosure or deletion.

How Coalition Active Cyber Insurance helps

Coalition Active Cyber Insurance goes far beyond a traditional cyber policy, offering coverage, cybersecurity tools, and access to cyber experts to help you protect your business and reputation from cyber risk.

Unparalleled Financial Recovery Tactics

If funds are fraudulently transferred, Coalition acts fast to “claw back” stolen money — working with law enforcement, obtaining emergency injunctions, and beyond. In 2024, we successfully recovered \$31M for policyholders.¹

Priority Access to Coalition Incident Response

Policyholders have access to Coalition Incident Response (CIR), which delivers expert guidance, rapidly containing breaches and stabilizing your operations, often minimizing out-of-pocket loss.²

Preventative Cyber Risk Management

Coalition Control[®], our unified risk management platform, helps you detect, assess, and mitigate cyber risks before they turn into incidents.

Industry-Leading Coverage

Protection against key exposures faced by title agencies: funds transfer fraud, ransomware, invoice manipulation, and more.³ Covered breach response costs and ransom payments are paid on your behalf — eliminating the hassle of reimbursement.
