

Exciting news for FNF Agencies that use SoftPro Select, Resware, RamQuest and AccuTitle.

Deluxe brings direct eCheck integration within these title production systems for disbursing escrow in a faster easier and more secure manner.

You can now send escrow payments from your title production software (SoftPro, Resware, RamQuest, AccuTitle) directly to Deluxe Payment Exchange. Choose secure eChecks or our Print+Mail service. eChecks are delivered by email, enabling instant and secure delivery. With Print+Mail, Deluxe prints your checks on high-security stock, stuffs them in envelopes and sends them via USPS First Class.

The Benefits You'll Love

Save Time and Money

eCheck integration eliminates the costs of check stock, printer maintenance, envelopes, postage and overnight delivery fees—freeing up your team for more important tasks.

Built-In Flexibility

Use eChecks for any escrow disbursement including sending commissions to real estate agents in minutes—no overnight fees, no delivery delays.

Reduce Escheatment Risk

Payees get multiple automated email reminders. Reissuing uncashed paper checks approaching escheatment is fast and simple—just send an eCheck instead. eChecks can also be soft-voided or disabled with ease, eliminating the hassle of the stop payment process and fees from your bank.

Special Pricing for FNF Agencies

- » eChecks start at \$0.53 each (less than a stamp)
- » Print+Mail starts at \$1.58, including First-Class postage
- » Purchased eChecks and Print+Mail checks never expire
- » Volume discounts available upon request

Bank-Grade Security

Built to meet strict banking standards, Deluxe Payment Exchange helps reduce, limits human touchpoints and delivers compliance you can trust. Many financial institutions even resell Deluxe Payment Exchange to their business clients.

No Back-Office Changes

Your current accounts payables and Positive Pay processes stay the same. eChecks are still reconciled as paper checks—no new workflows or system overhauls needed.

Proven, Trusted Partner

Deluxe is a publicly traded multi-billion-dollar company with over 100 years of payment expertise. We serve millions of small- and medium-sized businesses, thousands of financial institutions and process more than \$2 trillion in payments annually.
